

## Congruent Triangles      Side-Side-Side

**If three sides of one triangle are congruent to three sides of another triangle, the triangles are congruent.**

### Procedure

- 1. Identify and mark the congruent sides**
- 2. Name one triangle**
- 3. Name the other triangle in the same order with corresponding parts**

Given:  $\overline{AD}$  bisects  $\overline{BC}$

Given:  $\overline{BD}$  is the perpendicular bisector of  $\overline{AC}$ .

Given:  $\overline{CB} \cong \overline{RT}$ , and  $\overline{AB} \cong \overline{TS}$

Given:  $\overline{NP} \cong \overline{RQ}$ , and  $\overline{NR} \cong \overline{PQ}$
