

Menu

Hamburger\$3.50
Pizza.....2.00
Sandwich.....4.00

Menus could have just as well been written horizontally

Hamburger, \$3.50, Pizza, 2.00, Sandwich, 4.00.

But that format (notation) is not as easy to read and could cause confusion. Someone might look at that and think you could buy a \$2.00 sandwich. To clarify that so no one gets confused, I might group the food item and its cost by putting parentheses around them:

(Hamburger, \$3.50), (Pizza, 2.00), (Sandwich, 4.00)
