

Box & Whisker comparison

47

Answer the question below by clicking on the correct response.

The boxplots shown summarize the prices, in dollars, of 20 low-mileage used minivans and the prices, in dollars, of 20 low-mileage hatchbacks as listed on an auto dealer's Web site. Which of the following statements is the best comparison of the minimum price of the minivans to the prices of the hatchbacks?

- The minimum price of the minivans is greater than the prices of approximately 25% of the hatchbacks.
- The minimum price of the minivans is greater than the prices of approximately 50% of the hatchbacks.
- The minimum price of the minivans is greater than the prices of approximately 75% of the hatchbacks.
- The minimum price of the minivans is greater than the prices of approximately 100% of the hatchbacks.
